In Nov. and Dec., 1893, I contracted the 'Laz Grippe,' and I was one of the first. Resuming duty too soon, with the care of so many sick, I did not regain my health, and in a month I became so debilitated and nervous from sleeplessness and the drafts made on my vitality, that it was a question if I could go on. A dear friend advised me to try Dr. Miley's Restorative Nerve Tonic. I took a bottle and an hour later, I am better health than ever. I still continue its occasional use, as a nerve food, as my work is very trying. A letter addressed to Milwaukee, Wis., will reach me." June 6, 1904. Mrs. Laura C. Phoenix, Milwaukee, Wis.
